AMERICAN AND FOREIGN OFFICE.

R. H. EDDY, Solicitor of PATENTS, (Late Agent of U S. Patent Office, Washington, under the Act of 1867.) No. 76 STATE, OPPOSITE KILBY ST., HOSTON.

A FTER an extensive practice of upwards A of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries.—Cavents, Specifications, Assignments, and all Papers or Dravings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patens or Inventious,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through its inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpased by if not immeasurably superior to any which can be offered them clawhere. The testimonials below give proof that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTACES AND ADMILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the changes for professional services so medicate. The immense practice of the subscriber during twenty years just has enabled him to accomplate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to other superor facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTHIONIALS.

During the time 1 occupied the office of Commissioner of Fatents, R. H. Eddy, Esc., of Roston did business at the Patent Office, is solicitur of procuring Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office, and there were now the conducted it with more skill, fidelity and success. I regard M

GENERAL ASSEMBLY.

Continued from yesterday's Edition. The committee declining to take the steps asked, towards an investigation of the equity case, the request of Mr. Hazard in relation to the Court of Justices in the city of Newport was then considered. The chairman stated that the memorahst, in order to have any investigation, ought to first make a case. There should be prima facie evidence that the Court had usurped jurisdiction, or the committee could not properly act. If he would obtain the rec-

properly act. If he would obtain the records, and show from them and by such other testimony as he might be able to produce, that the Court of Justices of Newport had usurped powers not belonging to it, it would then be proper to arraigh the Court before the Assembly.

Mr. Hazard could not see the justice of this course. He had stated the present the form the court of the court o this course. He had stated the case, and he would give his affirmation of the facts, if required; but beyond this, he ought not to be asked to take upon himself the labor and expense of the investigation. He believed it was the duty of the Assembly to procure the records and witnesses, and protested in strong terms against the course [which was being pursued. He declined the offer of the committee to appear before them on Tuesday, the committee to appear before them on Tuesday. day, two weeks hence, and would appeal discorly to the House for any action he might ask hereatter.

Thus ended the case before the committ-

ce. But this disposal of it, we feel confident, will not satisfy the people. If miliulited equity powers have been conferred upon the Supreme Court, they will want to know the when, the why, and the wherefore. Mr. Hazard thinks the authorities quoted, only mean to point to the court as possessing what powers had been or might adversarids be conferred upon it, but that they actually confer no powers not elsewhere specifically set forth. This seems to be a fair interpretation; and we think it is the only interpretation under which any intake the conty interpretation under which any intake whatever can be prescribed to the equity powers of the court. We hope the subject will be theroughly discussed, and that we shall find out where we stand, one of these days.—Prrr. Post.

There is doubtless room for ambiguity in the provision of the tax law applicable to religious edifices. We construe the section religious conneces. We construe the section as it now stands, and as it has passed both Houses in the revised code, to exempt charches by whomever heid; but it was stated in the House that the assessors had in one lastance taxed a Roman Catholic church, the fee of which was not vested in trustees or a corporation, but in the Bishop. as is customary with the churches of that sect. The provident, pretty clearly, does not apply to Catholic schools the same exemption that it does to the Prostestant schools, has much as the former are not generally incorporated, but are held in fee by

There can be no doubt that the Caneral Assembly means that all churches shall be placed on the same footing of taxation, and as it appears, that an erroneous construction of the law has obtained in one town, it is better to make the law so plain that it cannot be minunderstood, than to compell he ag-grieved parties to litigate their ri hts in the courts. In fact, we wish to see religious freedom and equality in our State pro-tected by a stronger barricade, than a semi-coion.—Prov. doncad.

We trust that the members of the Assetably will see that no partiality is shown to any religious denomination, in the revision of the Laws of the State; Catholic Church and School property should be exemitted from Taxation in the same manner as is that of other religious denominations. It has always been the peculiar boast of Rhade Island men that this was not only the first State, but the first spot on earth where the doctrine of Religious toleration was practically illustrated and fully carried out; and we trust that in this 19th century, above all things, a Rh de Island General Assembly will not make a retrograde motion by plusing burtherns upon the Catholies which, they do not impose on any other Religious

Will the "Musical Institute" excase us with the "misseat his fall to excuse us for the suggestion that Mozart's Twelfth Mass and the Selllement of Jameslown south strangely in conjunction? How can both those pieces be appreciated by the same cars?—N. Y. Moscod Review.

The N. Y. Masica, Review, and our

friend "Verite," are both a little out of time. First, "Verite" says that the "Newport Musical institute" are rehearing the "Settlement of Jamestown," while they have only portions of that piece in practice : selections that will do credit to Tourjee's taste if I am any judge. So much for "Verite"-The Review is even more blameable; for it assumes as the basis of its judgement that two dissimilar compositions are to be sung in "conjunction !" Now what conjunction it can discover in singing "Mozarts Twelfth Mass in public," and "next" (which we presume means afterwards of course) taking up the "Settlement of Jamestown" to practice. I for one cannot discover. "How can both pieces be appreciated by the same cars?" asks the Journal, I should think that full evidence of lang, if not discriminating ears was clearly evinced in the question. Perhaps the editor thinks that "Green be your lapse forever," "O'er forest and meadow," "Away the morning freshly breaking", are not suitable to be sung by a Society of correet musical taste; but it he does he must consent to have his taste questioned by the Handel and Hayden Society of Baston and many Masical Societies in the country who have sang them. But the Editor know better; and we fancy his criticismis borrow ed from "another source," So much for the Review. The Institute has been largely increased since the above was nublished, and promises to go on daily garbering strength, until it becomes one of our most useful radatag and popular institutions. Ayer's Cathartic Pills

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these Pills have virtues which surpass in excellence the ordinary medicines, and that they win onprecedentedly upon the esteem of all men. They are eat and pleasant to take, but powerful to cure. Their nen trading properties stimulate the vital activities of the body remove the obstructions of its organs, purity the blood and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disea decad organs into their natural action, and impart health tone with strength to the whole system. No they care the every-day complaints of every body, be also formidable and dangerous diseases that have half the best of human skill. While they produce effects, they are at the same time, in diminished of

the hest of human skill. While they produce powerful effects, they are at the same time, in diminished doers, the safest and hest physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Carea have been made which surpass belief were they not substantiated by men of such exalted position and characters to be the supplicion of untrath. Many antinent clergymen and physicians have lent their manes to certify to the public the reliability of my remailer, while others have seen me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below manuel is pleased to furnish gratis my American Almanac, croationing directions for their use and certificates of their cares, of the following complaints:—Castiveness, Bilons Compilatins, Rheumatien, Bropsy, Hearthum, Heabache arising from a foul Stomach, Naziea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Fintubercy, Doss of Appetits, all Ulcerous and Cattaneous Diseases which require an avacuant Reddime, Scraolia or King's Kvil. They also, by purifying the blood and stimulating the system, our many Revous Irritability, Berangements of the Livar and Kiktery, Gout, and offer kindred complaints arising from a low state of the lessy or obstruction of its functions.

BROWNELL'S VENTILATOR.
PATENTED, SEPT. 16, 1856.

Herewith you are presented with a list of sizes with the price of each annexed, of BROWNELL'S PATENT VENTILATOR for all purposes where ventilation and a strong draft are required; and are particularly designed for RAIL ROAD CARS, PUBLIC BCILDING, SMOKEY CHIMNIES, and CAROOSE and CARLY PIPES.

Canix Pipes.

The advantage proposed by this ventilator over all others is, it gives a uniform draft to a chianney, and at the same time excludes water thus doing away with two great evils—a back draft and drippings down the chianney. The arrangement of the ventilator is very simple; it can be easily adjusted to any use for which it may be required, and it is not liable to get out of order.

THE GREATEST WONDER OF THE AGE.

THE GREATEST WONDER OF THE AGE.

A REMEDY which CURES IN FIVE A MINUTES.—M. LEROUX'S French Cholera Cognae Bitters. This truly wonderful selectifile compaund is recommended by the most emineut and learned physicians of all Europe and America, and enjoys the best reputation of anything similar ever offered. It is without doubt, the best most efficient and generally acknowledged remedy against cholera, dysentery, distribuea, and complaints of the stomach in general. The numerous patients who have tried it according to directions have invariably found relief in a very short time, and the best proof of it is, that since this standard renewdy was introduced in the armics of the Allies in the Crimea, the mortality of the soldies from chalera and similar diseases was diminished by over 75 per cent.; in consideration of which, the inventor was presented by the French and English governments with a gold medal, bearing the invention with a gold medal, bearing the invention with a gold medal, bearing the invention of the soldier.

This invaluable preparation is also a renedy for billionsness, indigestion, weakness, and general derangement of the stomach. Upon being taken, it creates appetite, and prevents

being taken, it creates appetite, and prevents the heaviness attendant upon eating by per-

The following recommendations have been furnished granutously:

Louisville, Jan. 27, 1851.

The Lightning Conductors on the plan of J. Spratt, of Cincinnati, appear to be very well devised, and in point of mechanical construction, are the best I have ever seen.

It is to be hoped that the use of these rods may become general as an important auxiliary defence against a danger which must be regarded as of no ordinary magnitude, to which all buildings are liable. B. SILLIMAN, Jr. Prof. of Chem. in the Univ. of Louisville

Prof. Wond—Dear Siy—Having become prematurely quite gray, I was induced some 6 weeks since, to make a trial of your Hair Restorative. I have used less than two battles, but the gray hairs have disampeared; and adthough my hair has not fully attained its original color, yet the change is gradually going on, and I have great hopes that in a short time my hair will be as dark as formerly. I have also been much gradified at the healthy moisture and vigor of the hair, which, before was harsh and dry, and it has ceased to come out as formerly.

Prof. O. J. Wood—Dear Sir—I take pleasure in hearing voluntary testimony to the nargic effects of your wonderful Han Restorative. As far back as 1856 my hair commenced falling off until the top of my scalp became hald and smooth as glass, and it has continued to fall off for a great many years, netwith standing I have used many celebrated preparations for its restoration. Seeing your advertisement I was induced to give your article atrial, and to my utter astonishment I found after a few applications that my hair became

length, and growing very fast
